

# Welcome to the Neighborhood Bikeway Prioritization Project Open House!

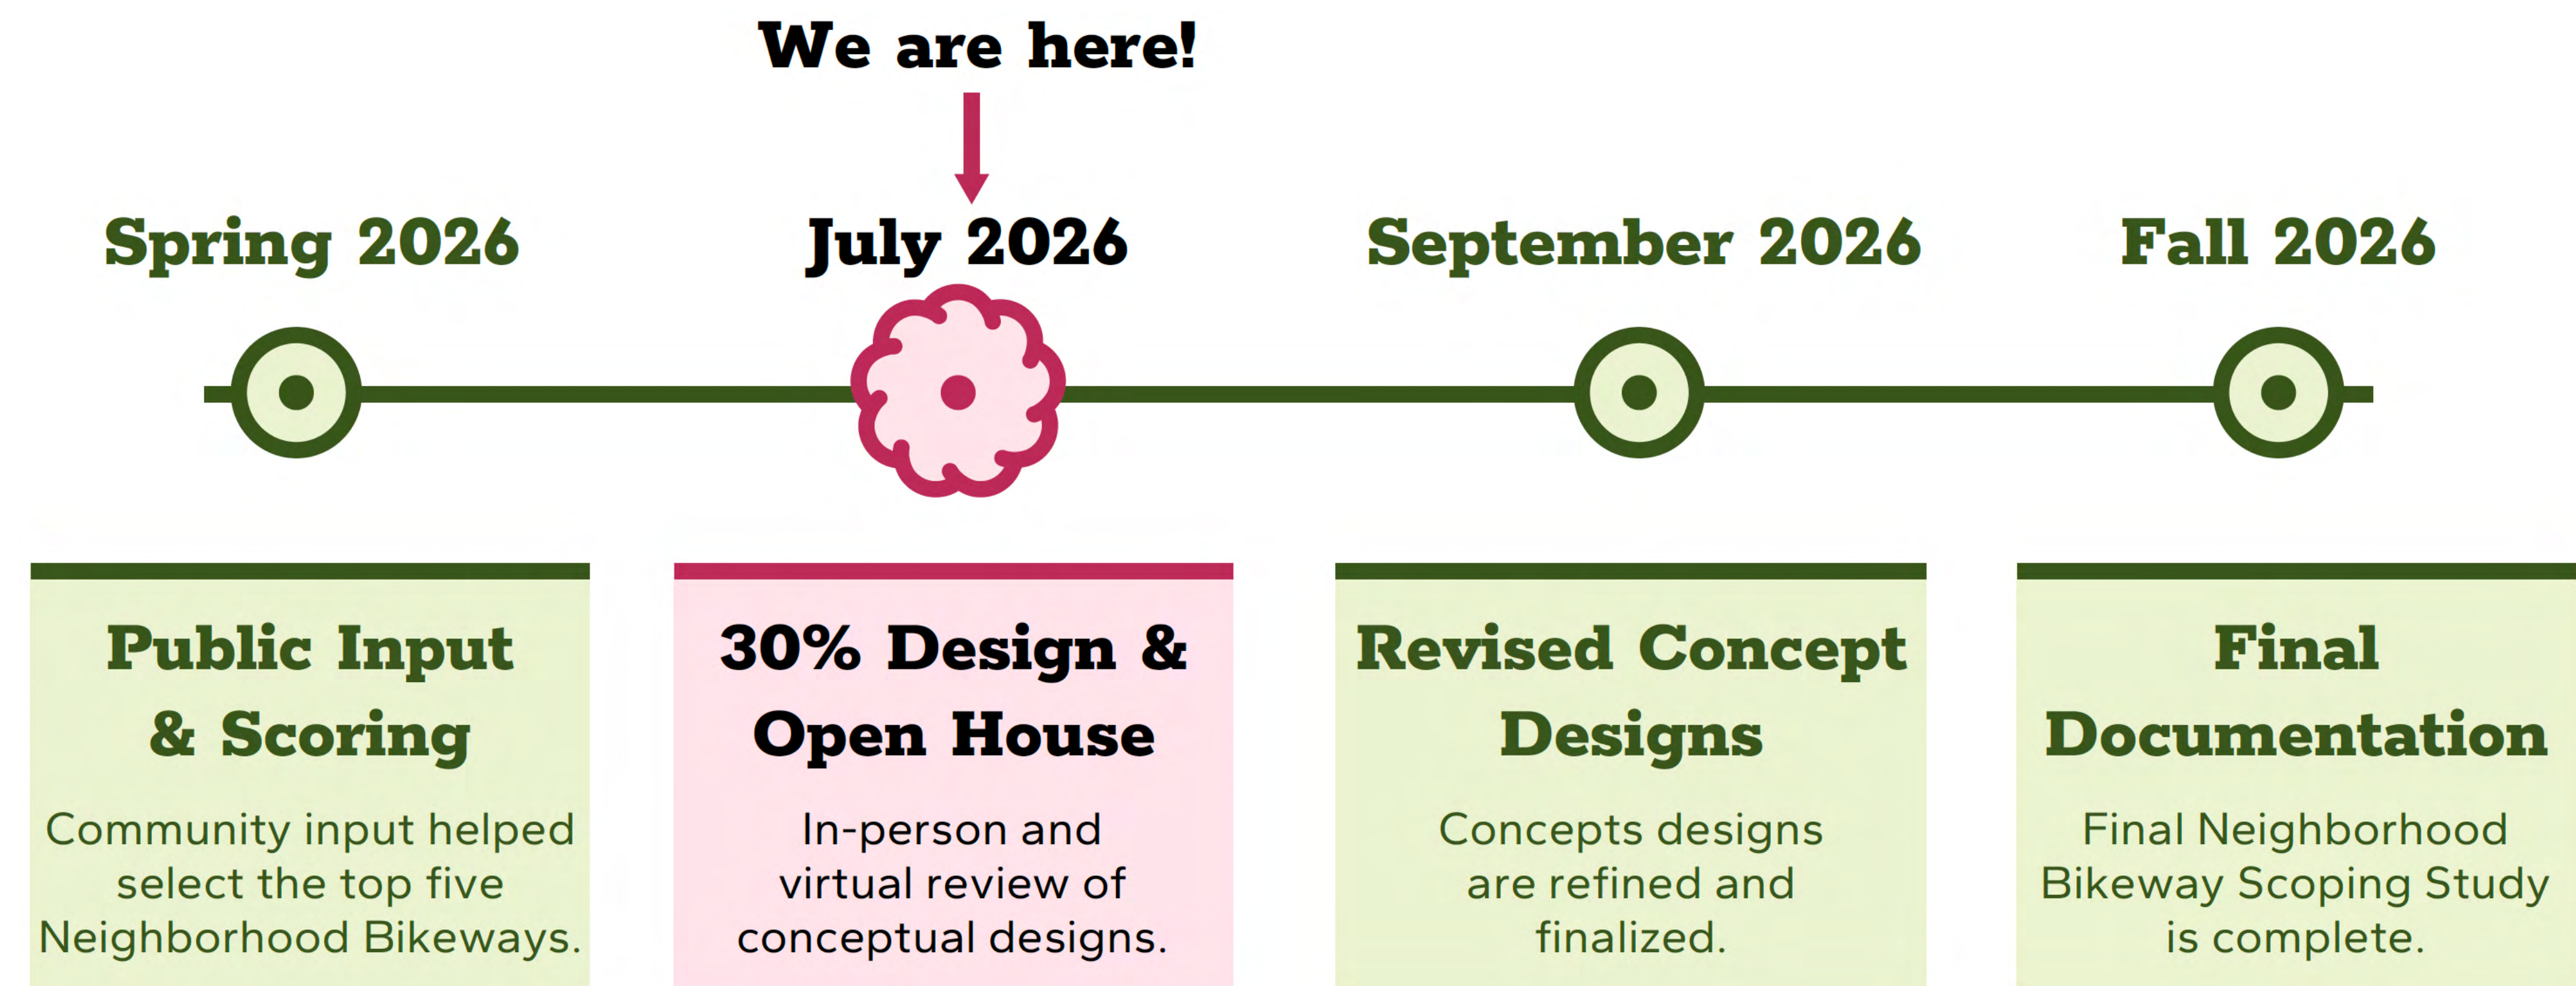

The City's Transportation System Plan (TSP), a plan to direct City investment in transportation infrastructure over the next 20 years, identified 11 planned Neighborhood Bikeway corridors.

## Project Purpose

- 1 Identify the next five Neighborhood Bikeways to implement through the City's 5-year Capital Improvement Program (CIP).
- 2 Create conceptual designs for each of the top five Neighborhood Bikeways to identify scope for each project.
- 3 Create cost estimates for the top five Neighborhood Bikeways to inform the City's 5-year CIP budget.

## Where We Are Today

The City of Corvallis has identified the top five Neighborhood Bikeways based on an objective scoring process. In Spring of 2026, the City brought the scoring process to the public and received valuable input. The top five Neighborhood Bikeways are shown on the Neighborhood Bikeways overview map.

Today we present a draft set of conceptual designs for the top five Neighborhood Bikeways. We'd like your input on these designs! Tell us what you like, what you don't like, or if there are any additional treatments you'd like for the project team to consider!

## How to Provide Feedback

### Option 1

Provide comments via physical comment cards. You can find them at the front table.

### Option 2

Provide comments online any time until **August 10th**. You can scan the QR code or go to:
